CAMP PHILOSOPHY

We welcome any player between the ages of 7 and 16, whether an experienced player or newcomer to the game of basketball. Our programs will be tailored to all ages and skill levels with the objective of improving individual fundamentals and proper team play. All campers will be grouped according to age, physical maturity, previous experience, and overall ability. They will be under the personal supervision of coaches who specialize in all areas essential to building a solid basketball foundation.

The instruction will range from the basic fundamentals to advanced skills. Each player will receive concentrated instruction in the areas that he and his coach feel require the most attention. There will be a great deal of emphasis toward individual instruction.

GENERAL INFORMATION

Program Includes

Camp shirt for each player
1 coach for every 8-10 players
Team Games Daily
Individual & Team Stations
Guest Lectures

What to Bring to Camp

One pair of properly fitted
basketball shoes
Athletic socks and shorts
Lunch/snacks/drinks

Supervision & Grouping

Players will be closely supervised
at all times by the directors

About Us

The Actuarial Foundation's Math Motivators Program:

Math Motivators provides high-quality, volunteer-driven, **FREE** math tutoring to students in grades 3–12, with a focus on middle school and high school students.

Our goal is to help close the opportunity gap by connecting professionals and college students with strong math backgrounds to students who do not have access to tutoring.

Math Motivators is a national program, serving over 1,000 students, with programs in over 30 cities.

Our tutors complete a comprehensive background check and are trained and supported by our team of educators.

The
Actuarial
FOUNDATION

A Program of The Actuarial Foundation

Math
Motivators

"Being in the group Math Motivators has made me more confident in my thinking...I thought Math Motivators was going to be a program that just helps me with my math skills, but Math Motivators helped me with my confidence."

Math Motivators students see results. In one Iowa school, prior to joining Math Motivators, 20 ninth-grade students were earning low Ds or Fs in Algebra. By end of semester, 95% of these students in the Math Motivators program passed Algebra, and 60% passed with As or Bs.

To learn more, visit mathmotivators.org or use the QR code here.

Hung Gar Kung Fu and Lion Dance Academy Summer Program Kung Fu | Lion Dance | Science | Mythology

ENROLL TODAY AT: WWW.HUNGGARQUINCY.COM

PRE-K TO 5TH GRADE

About Our Summer Program

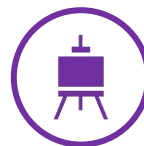

Looking for a summer program to keep your kids active while keeping their minds stimulated? Our summer program incorporates science, mythology, traditional kung fu and lion dance everyday!

Our summer camp is lead by Mr. Springer who is an experienced elementary school teacher teaching science in the Newton Public Schools for many years and now teaches Pre K to 5th grade in Boston Public Schools, with him are Hung Gar Kung Fu and Lion Dance Academy instructors who will serve as the summer program counselors.

Science and Mythology

Your children will be discovering mythological creatures and exploring natural sciences. Filled with visuals and interactive, engaging activities such as creating their own ecosystems, designing a Mars base, or maybe even having the opportunity to meet a Leopard Gecko, there are exciting activities throughout every week. Our teacher, Mr. Springer, has been teaching for many years in Newton and Boston Public Schools, and his lessons incorporate STEAM (Science, Technology, Engineering, Arts, and Mathematics) Learning. He is always striving to provide the students with an entertaining, engaging, and educational Theme Study every time.

Kung Fu and Lion Dance

Your children are immersed in a rich cultural and traditional experience learning kung fu and lion dance. While kung fu and lion dance are fun, exciting, and dynamic activities, little will they know they will learn much more than just that. Here they will learn how to move their bodies accurately and control and balance their movements and strength. They will build self-confidence and discipline while fostering bonds with their peers. There will be group activities where they will work on teamwork, respect, and learn to be selfless. They will learn self and team perseverance. Kung fu and lion dance works to strengthen one's mind, body, and spirit, while, hopefully, creating life long friendships.

In addition, we will plan on going outside enjoying the beautiful summer weather. Doing fun educational activities both inside and outside. Playing games to foster bonding between peers and making long lasting friends.

Space is limited!
Enroll today at: www.hunggarquincy.com

Schedule

Typical Day (8am to 4pm):

FIRST SEMESTER SCHOLARSHIP

Quincy Public Schools

First Semester Scholarship

We're proud to support Quincy Public Schools by offering this year's graduating students an unprecedented opportunity to continue their educational journey right here in their hometown.

Current Grade 12 students are eligible for a Quincy College full-tuition scholarship for the first semester of the 2022-2023 academic year.

We believe in our city's students — and in their future. Their success is important to them, to us, and to the community. We're eager to welcome these students to Quincy College and provide them with the challenging, supportive academic environment they deserve.
